Around **CHEST** (over shirt) _____ 4

Around **WAIST** (over shirt) _____ 5

LADIES: What Bra size would you buy? _____ 6

Special Instructions

KILT

Tartan: _____ Quality/weight 11oz/13oz/17oz/19oz
 (Remember to state whether 'ANCIENT', 'MODERN' or 'WEATHERED' colouring is required)

WAIST Start your measuring over shirt only, 1 1/2 to 2" above the hip bone snugly round your waist, (about 1" below ribcage).
 Note: kilts sit high up, **NOT** where trousers sit on waist

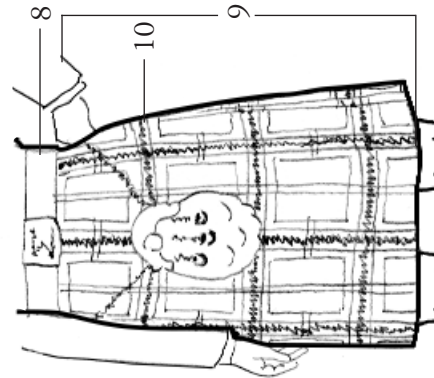

LENGTH Start measuring 1 1/2 to 2" above your hip bone to top or middle of your knee (whichever you prefer length-wise).
 When kneeling erect, base of kilt should be approximately 1" off the floor.
 Keep your head up. Best to get someone to measure this

SEAT Measure round your seat at highest part, add two inches inside the crease to avoid fraying this measurement too tight as the seat should be an easy measurement, (with no waltes etc. in pockets)

HEIGHT Measurement is very important as it is a second check for us.

WEIGHT _____

LADIES
 Skirt style Pocket/Lined _____
